	بخش چهارم: درک متن	
5	متن زیر را بخوانید و برای هر قسمت جواب صحیح را انتخاب نمایید یا پاسخ کوتاه بنویسید. A dictionary is a reference book that explains the meanings of words and expressions. Words in a dictionary are arranged in alphabetical order, making it easy to find them. The word "dictionary" comes from the Latin word "dictio," meaning "saying". There are different types of dictionaries. Some explain the meanings and usage of words, while others translate words between languages. Specialized dictionaries, such as biographical dictionaries, provide information about famous people, and technical dictionaries focus on explaining complex, technical terms. Dictionaries that define words clearly also provide additional details, such as their pronunciation, often using the International Phonetic Alphabet (IPA). Bilingual dictionaries, which translate between two languages, usually include both directions in one book—for example, English to Persian and Persian to English. When using a bilingual dictionary, it is important to select the correct meaning for a word. For instance, the English word "right" can mean "correct" or "the opposite of left." Similarly, the word "present" can function as an adjective (meaning "not absent"), a noun ("gift"), or a verb ("to give"). These differences also occur in other languages, so dictionaries list multiple meanings to help users choose the correct one. **44.** What does the Latin word "dictio" mean? A. book B. saying C. word D. language **45.** What is the main purpose of a dictionary? a) To translate stories between languages b) To explain the meanings of words and expressions c) To provide information about historical events d) To list famous people **46.** Dictionaries always arrange words in random order. True ◯ False ◯ **47.** A good dictionary provides all possible meanings of a word. True ◯ False ◯ **48.** A bilingual dictionary helps you to translate words from one language to another language. True ◯ False◯ **49.** The word "present" has only one meaning in English. True ◯ False ◯ **50.** Why is the International Phonetic Alphabet (IPA) useful in dictionaries? **51.** What are two examples of specialized dictionaries mentioned in the text?	**12**
