7	**Unscramble the given words.** 1) all / my / my / lap / little / sits on / the time / mother's / sister. 2) were / if / the car / home / fix / John / he / could.	2
8	**Read the following passage and answer the questions.** Solar energy is the most effective of all energy resources and it can even be available in cloudy weather. The solar energy which comes to the Earth is about 10,000 times greater than the amount which humankind consumes. Solar technologies can deliver heat, cooling, natural lighting, electricity, and fuels. Solar technologies convert sunlight into electrical energy through solar panels or mirrors. Although not all countries use solar energy, it is possible for every country. The cost of producing solar panels has surprisingly decreased in the last few years, making them not only in access but often the cheapest form of electricity. Depending on the type of material used in their production, solar panels can work for around 30 years. **True/False** **1)** Solar energy comes from the Earth. **a.**True **b.** False **2)** Solar panels cost a lot in the last few years. **a.**True **b.** False **3)** Solar panels convert sunlight into electrical energy .**a.**True **b.** False **4)** All countries use solar energy to generate electricity. **a.**True **b.** False **Complete the following sentences.** **5)** In cloudy weather ……. is available. **6)** Solar …….. are produced to work for a long time. **Answer the question.** **7)** What do solar technologies deliver to us?	5
9	**Read the following passage and answer the questions.** Sleep is essential for all people. Did you know that sleep is more important than food? A person, who does not sleep, dies at a younger age than one who does not eat. Let's say you sleep 12 hours later than you usually do. It will take your body about three weeks to return to normal. We spend about one-third (1/3) of our lives in sleep. That's about 121 days a year! How much sleep do we require? We are all different. A baby needs 16 hours of sleep every day. Children 6 to 12 years old need an average of 10 to 12 hours of sleep. A teenager needs 9 to 10 hours, and an adult needs an average of 7 to 8 hours of sleep a night. Of course, some people need only 3 hours of sleep each night. Others need 10 hours of sleep. After age 50, the average sleep time goes down to 6.5 hours a night. We need less sleep as we get older. **True/False** **1)** Food is less important than sleep. **a.**True **b.**False **2)** There is no difference in sleep time among people .**a.**True **b.**False **Choose the best answer.** **3)** Old people need …… hours of sleep each night. **a.**9 to 10 **b.**10 to 12 **c.**6.5 **d.**16 **4)** A person, who does not sleep, ……. than one who does not eat. **a.** lives longer **b.** lives less **c.** eats more **d.** gets older **Answer the question.** **5)** How much do we sleep in our lives?	3
